EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes 1. and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edwin Paul on October 27, 2006.

The application has been amended as follows:

At Claim 8, line 16, after "process", insert "without having to close and restart the process manager."

At Claim 70, line 10, and replace "control object" with "configuration object".

At Claim 75, line 8, and replace "control object" with "configuration object".

2. The following is an examiner's statement of reasons for allowance: The claims are allowable for at least the following reason: Claims 1-6, 8-10 and 16-21 indicate allowable subject matter of "in response to opening a new application / process / application process issuing a registration request from the new entity to register with a manager, automatically and dynamically displaying a notification of the registered entity Application/Control Number: 09/346,789

Art Unit: 2195

without having to close and restart the manager". The cited prior art of record teaches

portions of the claimed language but does not properly teach all of the cited language

that meets the requirements of 35 U.S.C. 103. Some of the prior art teach automatically

and dynamically modifying parameters associated with registered processes or

automatically and dynamically displaying an indication of a new process, however other

references allude to the processes being pre-registered or once registered with a

manager the manager must re-start in order to manipulate/display those processes. In

other prior art references, the processes do not register with the manager but are

dynamically determined by another entity or the manager itself. This would not meet

the limitation of the process registering with the manager and displaying the registered

process without restarting the manager as outlined in the claims. Therefore, these

claims are allowable based upon the allowable subject matter as indicated above, since

none of the prior art of record adequately teaches this language.

Claims 33-42 and 52-76 detail steps of modifying / configuring a registered

process by generating a configuration object, receiving a remotely provided applet of

the application and displaying the applet in the user interface to configure and pass

parameter modifications to dynamically change the parameters of the application. None

of the cited prior art of record teach steps of modifying registered applications as

outlined in the claims and therefore the cited claims are allowable over the prior art of

record.

Any comments considered necessary by applicant must be submitted no later

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lewis A. Bullock, Jr. whose telephone number is (571) 272-3759. The examiner can normally be reached on Monday-Friday, 8:30 a.m. - 5:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Meng An can be reached on (571) 272-3756. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
